Retail Sku's are generally sold with a headercard and barcode that can be sold in retail stores. Bulk sku's are the gloves only which are generally sold as inners/ cartons and intended for large industrial users.

Certifications

ULTRACUT

Impact Defender

- Sandy nitrile palm dip
- Cut level 'D' HPPE liner
- TPR impact resistant padding
- Washable

This glove is a real 'Jack of all Trades'. It boasts a high level 'D' cut rating on all areas of the glove. The TPR padding on the back-of-hand achieves a pass (P) rating on the EN388 impact test. The sandy nitrile palm dip is flexible, breathable and lasts longer due to the level 4 abrasion rating. While previous impact gloves have been uncomfortable to wear, the unique TPR pattern with strategic breaks really does make this a comfortable glove to wear. You'll hardly notice the extra padding, but you'll be thankful it's there when you smack your knuckles with the hammer.
